Our History

ABS&P was founded by Dr Andre Alexander, an experienced and qualified English common law lawyer. Since its inception in 2021, the firm has challenged conventional thinking and redefined what clients should expect from legal services. Recognised in legal directories for excellence and as a leading international law firm, ABS&P is driven by innovation, integrity and an unwavering commitment to justice. In mid-2026, it became a 90% virtual international law firm – one of the first of its kind in the world.

Pro Bono & Social Justice

Through its Thrive Fund, ABS&P supports social justice initiatives and provides grants to clients who would otherwise be unable to afford traditional legal costs. The fund reflects our commitment to improving access to justice and ensuring that financial circumstances do not prevent individuals from obtaining appropriate legal support.
